

Shandler A. Mason is a PhD Candidate advised by Dr. Sandeep Kaur Kuttal in the Human Factors + Experience Engineering Lab. Her research focuses on *discovering* societal and technological barriers and *inventing* methodologies to support software practitioners. Shandler received her M.S. in Computer Science from North Carolina State University and B.S. in Computer Science with a Minor in Applied Mathematics from North Carolina Agricultural & Technical State University. Ms. Mason, who will become Dr. Mason in 2026, is currently exploring opportunities to pursue a research career in academia or industry.
